A Step Back In Time

With the help of St. Clair Media, the Flowertown Players and local businesses, Summerville DREAM shot a 3D second commercial at the end of July that encourages tourists to visit the small town with big charm to “shop, dine and visit.”

Director/producer Russ Rusin and DREAM’s Executive Director Susan Morris designed an ad in which a Victorian couple and a modern-day couple each participate in the many activities Summerville offers. The commercial jumps back and forth between the two couples until they finally meet face-to-face at Azalea Park.

The Flowertown Players lent their costumes and recruited the talent for the commercial. Jim Doran and Barbara Ward play the modern-day couple, while Gary and Kirsten Nipper acted as the historical couple.

Gary and Kirsten Nipper on location at Guerin’s Pharmacy during the shoot.

56 Dreaming of Home
A look inside the home of Susan Morris, the Summerville D.R.E.A.M. Executive Director. by Will Riccio
“I love it here, I have lived here for over 20 years.....”
   -Anonymous Resident

“I've was born and raised in Summerville and returned to raise my four kids as well. I truly love Summerville and would not want to live anywhere else. I enjoy the great community we and our kids have here. The churches are solid, people are invested in the community and we are a great distance from Charleston.”
   - Foster Smith, Summerville resident

“I have lived here for only a couple of years and like it. However, I was surprised to see how poorly the city growth has been managed when it comes to new subdivisions and traffic patterns.”
   -Anonymous Resident
