Existing Interior Space
Proposal for Redesign of East Block
Existing Theater
Proposal for Redesign of East Block
Proposal for Redesign of Central Four Blocks
Urban Design Guidelines:

Taken from Savannah’s 12 points of relativity:

- Height-Mandatory Criteria- within 10% of existing structures
- Ratio Proportion- The basic relationship of height to width of building’s façade, as well as relating details to human perspective
- Rhythm of spacing of buildings on street
- Relationship of miscellaneous items- material, texture and color
- Relationship of architectural details
- Relationship of roof shapes
- Directional expression
- Walls and planting continuity
Thank you for your time and consideration.
